# 1500kg Electric Pallet Truck

-I-ION

- Industrial floating stabilizing wheels for maximum stability
- Small size (l2=400mm) and reduced weight (160kq)
- 24V-30Ah removable Li-ion battery with metal protection cover
- Fast charging trought integrated charger
- Turtle button for operation in narrow spaces
- Available in different forks length and width

| Manufacturer                     |       |      | EP          |
|----------------------------------|-------|------|-------------|

er's grow together

#### Optimized structure, easy operation

The metal protective cover of the battery can be flipped open and closed.

This simple cover allows for better security and reduces the chance of the battery becoming unplugged accidentally.

### New design of plug-in&out battery

The truck uses on-board chargers and it can be charged whenever and wherever you want.

The truck can be equipped with Li-Ion batteries of 30Ah, which can meet different kinds of working condition . Li-ion battery developed by EP is equipped with BMS(battery management system), which is more convenient to use.

### Rigorous design, stable operation

It is equipped with industrial floating universal wheels as standard and offers great passability.

#### Reliable drive system

EPL154 adopts the same mature and reliable drive system of EPT20-15ET, and its gradeability can reach 10% even with the load of 1000kg.
